EQUIPMENT SPECIFICATION

To make choosing straightforward and enjoyable, we've worked hard to ensure that the information in this brochure is accurate at the time it was created in December 2019. It's important to remember that Citroën can introduce changes to the equipment and accessories featured, although these wouldn't alter the essential character and design of the models. Naturally the images and specifications are also dependent on trim level and any options included.

We know how important it is to present the right facts and figures, so our brochures are regularly updated, however it is important that you consult your dealer when ordering your vehicle to ensure you are advised of the latest specifications and equipment.
