EVERYTHING YOU NEED TO ENJOY THE HUNT

TAILOR MADE TO BE RIGHT ON TARGET

To create a vehicle truly fit for purpose; we required the insight of a professional. An honest, real advocate who would ensure the practicality of this pick-up. Chef, restaurateur and hunter Mike Robinson fitted the bill perfectly. He established a set of very particular demands and rigorously put the vehicle through its paces, collaborating with Isuzu through every stage of development to create the Isuzu D-Max Huntsman. A pick-up that is totally professional in every detail.

A 2WD/4WD pick-up with low ratio gears available on the move, the Huntsman features lockable, out of sight storage for firearms as well as ample bed space for dog boxes or equipment. Its 2.5 litre diesel engine with twin turbos makes it equally capable on and off road.

Outside, it combines form and function to great effect – a distinctive Tundra Green not only catches the eye but also blends into the background when necessary. There is no chrome to dazzle or shine and high-mounted tow bar allows for excellent ground clearance.

The Huntsman also represents outstanding value for money. Designed specifically for the professional, dedicated huntsman and countryman, it says a lot about the people who drive it.
