

Innovation
that excites

NISSAN ALL NEW NP300 NAVARA

Tough, agile and stylish, the all new Nissan NP300 NAVARA is the latest in a long line of Nissan pick-ups – we produced our first in 1935. Along the way we pioneered the King Cab in 1977, the innovative C-channel tie-down system in 2005, and now the first use on a one-tonne pick-up of 5 link rear suspension, forward emergency braking and around view monitor. Our proud legacy, shared among **14 MILLION PICK-UP OWNERS** blazing trails in **180 COUNTRIES** continues today. As long as there's adventure on the horizon, Nissan will lead the way.

TOUGH. SMART.

INTRODUCING THE ALL NEW NISSAN NP300 NAVARA. We've always built strong, dependable pick-ups and we've consistently innovated to deliver what you want. The 2.3L dCi engine, in 190HP twin turbo or 160HP single turbo forms and linked to a 2WD or 4WD transmission, delivers the rugged performance and best-in-class fuel economy you demand from a Nissan pick-up. With fuel economy of up to 44.9mpg it takes you on and off road without missing a beat - and with a standard 5 year/100,000 mile warranty, that's a promise you can trust. Experience the excitement of the next generation pick-up - a tough, confident ride in premium comfort.

THE PICK-UP YOU CAN TRUST, RIGHT DOWN TO ITS CORE.

The all new Nissan NP300 NAVARA pick-up has a fully boxed ladder chassis rather than the three-sided channel-section frame found on some other pick-ups. There's also new 5 link rear suspension, unique in the pick-up segment. This gives a better ride and more agile handling, without compromising load-carrying ability.

CLIMB, CRAWL AND POWER YOUR WAY THROUGH.

Whether it's in the depths of the countryside or the concrete jungle, the all new Nissan NP300 NAVARA is always in its element. There are three driving modes – 4WD High for light off-roading, 4WD Low for serious off-road driving in sand, snow or deep mud, or 2WD for when you're on tarmac. With features such as Hill Start Assist and Hill Descent Control, it's the pick-up that's ready for anything, giving great traction even in 2WD mode thanks to its electronic Limited Slip Differential..

DEVOURS ROADS.

Outside, it's a pick-up, inside, the all new Nissan NP300 NAVARA is more like a premium crossover. Check out the ergonomic design of the dashboard and the high quality trim materials used. Relax in the astronaut-inspired spinal-support seats, with the dual-zone Automatic Climate Control set just so. Take advantage of the Around View Monitor, making manoeuvring in tight spaces even easier. This pick-up is not only a workhorse - its your every use, everyday machine.

LOAD UP OUR MOST VERSATILE PICK-UP BED EVER.

The all new Nissan NP300 NAVARA is engineered to handle tough jobs, carrying heavy payloads of over 1 tonne and towing up to 3500kg. A lighter tailgate makes loading and unloading simple. Ensuring your cargo is secure is easy, too, thanks to Nissan's revolutionary C-channel tie-down system. Moveable cleats can be locked anywhere in special tracks in the floor and on the three sides of the pick-up bed, so you can safely secure any load, of any shape or size.
