

PRICE AND SPECIFICATION

Model Year 2017
Edition 4

NEW
VOLVO V90

YOUR OWN V90 IS IN REACH

The new Volvo V90 puts you at the heart of a luxury experience. An experience where intelligent, beautiful design works in harmony with cutting edge innovation. A combination of exquisite, natural materials with sophisticated, intuitive technology that continues the journey we started with the XC90.

Building on Volvo Cars' indisputable heritage in the estate segment, which began more than 60 years ago, the new Volvo V90 with its true Scandinavian styling, takes a clear step forward in terms of aesthetics, material, finish, while living up to the ultimately practical nature of any true estate.

Swedish luxury is about the beauty of simplicity, using natural and simple details to express the Scandinavian heritage enjoyed and celebrated at Volvo Cars since its creation in 1927. By using intuitive technology, Volvo's in-car infotainment control system, Sensus, the majority of functions inside the vehicle are controlled via a 9" center touch screen, removing the need for physical buttons which allows for a cleaner and freshly designed user interface.

¹⁾ P11D value for BIK purposes is the retail price plus delivery charge. BIK % shown for the 2016/17 tax year.

All 'On The Road' prices quoted in this price list include Volvo standard national delivery charge, inclusive of number plates and VAT at £550 and vehicle tax as of 1st April 2016 (as set by the government). This charge does not include any provision for fuel. The 'On The Road' price also includes a £55 vehicle first registration fee (as set by the government – excludes Channel Islands and Isle of Man). Recommended retail prices quoted do not include these additions.

NEW VOLVO V90 FEATURE EXPLANATION

CITY SAFETY WITH FRONT COLLISION WARNING AND AUTOBRAKE

Included as standard in your new V90 is City Safety, which senses potential collisions, even when it is dark, and can activate the brakes automatically should you not react in time. City Safety provides three levels of intervention; warning, brake support and autonomous braking and uses a complex array of instruments and sensors to constantly monitor surrounding conditions.

PEDESTRIAN, CYCLIST AND LARGE ANIMAL DETECTION

The groundbreaking Pedestrian, Cyclist and Large Animal Detection technology detects and automatically brakes the vehicle in the event of a pedestrian, cyclist or large animal (such as a deer) stepping/swerving out in front of the car. The advance sensor system scans the area ahead and will prompt you to act with a flashing warning light on the windscreen, along with an audible alarm. If you do not react to the warning, and a collision is imminent, the car immediately brakes with full braking force.

REAR COLLISION MITIGATION

Rearward facing radar detects if a rear impact is imminent, and safety belts are tightened in advance in order to protect the occupants. Lights also start flashing to warn the driver behind and brakes are activated to help reduce the impact.

DRIVER ALERT CONTROL WITH LANE KEEPING AID

Cameras constantly monitor the V90's position on the carriageway, warning the driver by audible sound and/or taking action by automatically correcting the steering - if roadside markings are crossed without obvious reason such as the use of the turn indicator. And if the Driver Alert Control determines a deterioration in driving behaviour, a warning sound and display message encourages the driver to take a break.

ROAD SIGN INFORMATION

The new V90 can also help you stay informed by displaying road sign information within your instrument display. This function also has the ability to warn the driver should the vehicle exceed the current road speed limit.

ACTIVE HIGH BEAM

This feature enables the car itself to switch between low and high beam when oncoming traffic approaches.

PILOT ASSIST

Fitted as standard is Volvo's next generation of autonomous driving. The Adaptive Cruise Control feature maintains the desired set vehicle speed but utilises radar to monitor the vehicle in front and automatically slows down or speeds up as necessary. In an evolution of this, Pilot Assist also takes care of the steering (up to 80mph) by continually monitoring the area in front of the vehicle, making the necessary steering, accelerator and brake inputs as required to keep to the desired speed, distance and within the lane markings.

BLIND SPOT INFORMATION SYSTEM WITH CROSS TRAFFIC ALERT

The Blind Spot Information System uses sensors to alert the driver to vehicles within the mirror blind spots, either side of the vehicle. Cross Traffic Alert uses radar to provide information to the driver about vehicles approaching from the side - useful for when traffic approaches from the sides and rear, for example when reversing out of a parking space.

PARK ASSIST PILOT

This function takes over the steering of the car leaving the driver to follow the instructions provided in the instrument cluster with regards to acceleration, braking and selection of gears. In addition to automatic parallel parking, parking at 90° to road is also supported.

VISUAL PARK ASSIST 360°

During low speed manoeuvres, the Visual Park Assist 360° provides the driver with additional information relating to the car's surroundings. A birds-eye view of the car is provided via four hidden cameras, digitally stitched together to create a seamless image in the centre screen.

ACTIVE FOUR-C CHASSIS

Features different modes that can be selected by the driver according their personal preference, air suspension also ensures that the vehicle remains level irrespective of passenger and load configuration.

ROAD EDGE DETECTION AND RUN-OFF ROAD PROTECTION

Road Edge Detection uses a camera to monitor the position of the vehicle in relation to the road markings and applies steering input as necessary if it detects that the vehicle is about to leave the road. Should the vehicle inadvertently leave the road, the front seat belts are automatically tightened whilst the front seat frames contain a collapsible section designed to reduce vertical forces by up to one third - thus reducing the likelihood of spinal injuries.

AUTOBRAKE AT JUNCTIONS

Should the V90 detect that you have turned in front of an oncoming vehicle (at a junction or intersection for example) the brakes will be automatically applied in order to mitigate the risk of a collision. In addition, at speeds above 18mph, and if a collision is unavoidable, the front seat belts are automatically tightened.

NEW VOLVO V90 TAKE THE WHEEL

Our range of finance, service and insurance options will allow you to budget for your new Volvo around one key factor – your lifestyle.

FLEXIBLE FINANCE

You might be surprised how easy and flexible financing the purchase of your new car can be. As part of Volvo, Volvo Car Financial Services has developed a series of funding plans that will provide you with maximum choice and flexibility when acquiring a Volvo.

SERVICE PROGRAMME

When you have your car serviced at a Volvo dealer, we make a pledge to you. It's called Volvo Service Promise and it guarantees an unbeatable combination of quality, reassurance and expertise. First, your personal service advisor will deal with any of your questions and make sure you can get to where you need to go. Our expert technicians will then give your car a full health check including a free software upgrade. Finally, we'll provide you with 12 months' complimentary Volvo Roadside Assistance and a car wash. For full details please go to volvocars.co.uk/servicepromise

INSURANCE

Volvo Car Insurance is rated 5 stars by Defaqto¹ and designed with you in mind, from the moment you get behind the wheel of your new car. It offers excellent value, a range of exclusive benefits and a UK-based 24-hour claims team. **Call now for your insurance quote² on 0330 102 7960.**

VOLVO ON CALL

Subscribe to Volvo On Call and you'll never be completely on your own. It's a GPS-based communication system providing 24-hour access to both emergency and roadside assistance wherever you are. Comes complete with a mobile app that provides a car locator, remote dashboard and lock-your-car functionality. For full details visit volvocars.co.uk

ROADSIDE ASSISTANCE

Every new car comes with 3 years' Volvo Assistance cover. You'll enjoy free breakdown and recovery assistance, anywhere in Europe, 24 hours a day. You can extend cover for 12 months for £99 or it is automatically extended if you have your car serviced at a Volvo dealer. For full details please go to volvocars.co.uk/volvoassistance

WARRANTY

Every new Volvo comes with comprehensive protection. Our warranty covers the first 3 years or 60,000 miles, whichever comes first. There's a 3-year unlimited mileage warranty on the paintwork, and either 8 or 12 years against rust perforation. The battery in the T8 Twin Engine is covered by a warranty for 8 years or 100,000 miles - whichever comes first. If a component fails due to a defect or material fault, your dealer will swiftly rectify the problem, free of charge.

¹ Defaqto is an independent researcher of financial products. ² All benefits are subject to qualifying status, terms and conditions, cover level and underwriting criteria. Volvo Car Insurance is provided by Original Insurance Services Ltd, registered in England and Wales No. 05686831 at Batchworth House, Church Street, Rickmansworth, Hertfordshire, WD3 1JE and is authorised and regulated by the Financial Conduct Authority. It is underwritten by Allianz Insurance plc, registered in England No. 84638 at 57 Ladymead, Guildford, Surrey, GU1 1DB. Allianz Insurance plc is authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority (Financial Services Register No. 121849).

Max. payload, kg (dependent on spec.)	577	583
Max. towball weight / roof load, kg	110 / 100	110 / 100

¹⁾ For best performance and lowest fuel consumption 98 RON is recommended, 95 RON can be used for normal driving.

²⁾ All diesel models are fitted with a particulate filter.

³⁾ The results do not express or imply any guarantee of the fuel consumption of a particular car.

⁴⁾ Official fuel consumption figures are obtained in accordance with Directive 93/116/EC as amended by 1999/100/EC. The figures are obtained under controlled test conditions and as such consumption achieved on the road will not necessarily accord with the official test results. Factors including driving styles and road, car and weather conditions will also have a bearing on actual fuel consumption achieved.

⁵⁾ Unbraked towing weight must not exceed 50% of kerb weight up to a maximum of 750kg.

LUGGAGE COMPARTMENT	
Volume to glass line - rear seats up, litres	560
Volume to roof - rear seats up, litres	723
Volume to roof - rear seats down, litres	1,526
