Caddy Maxi Camper

The compact way to make big trips

Outdoors, made greater

Transform the way you explore the world with versatile camper vans that suit your every need

Volkswagen camper vans: your next adventure starts here

THE ARRIVAL of the Volkswagen camper van in the early 1950s marked the start of a new age of holidaymaking. The versatile, practical, Volkswagen camper van caught the spirit of the times and has been the last word in independent travel ever since.

Whether it's a family camping holiday, a music festival weekend or a voyage of discovery road trip, a Volkswagen camper van brings you the freedom of the open road, along with a place to eat and sleep at night.

That 60 years of globetrotting experience runs through the latest generation of Volkswagen camper vans – the California SE, the California Beach and the Caddy Maxi Camper. Each supremely practical model delivers high levels of performance, safety and comfort, and all retain the charm and personality that give every Volkswagen camper its universal appeal.

Remember, travel isn't just about the destination, it's in the pleasure of getting there, too.

VolkswagenCommercialVehiclesUK

vwcommercialvehicles

The dream machine

Today, Volkswagen brings the same spirit of adventure to your travel and holiday plans that the earliest split-screen camper van owners enjoyed

1950

The original 1950 Transporter was designed as a utilitarian workhorse

Spirit of travel

No other vehicle captures the sense of freedom of the Volkswagen camper van. It will take you anywhere and give you a place to eat and sleep. Little wonder it has been the choice of globetrotters, festival fans and surfers for six decades.

The Volkswagen camper van was born of a commercial vehicle concept created in 1947 by Dutch Volkswagen importer Ben Pon. He sketched the idea for a

Volkswagen Beetle-based work van – simple yet versatile, it inspired a range of body combinations including, in 1951, one with a living and sleeping area created by Westfalia.

With home comforts in a practical vehicle, the journey suddenly became as exciting as the destination. It opened up a new spirit and era of travel – as strong today as it was in those early days.

1951

By adding a living and sleeping space to the basic van, Westfalia created the first camper

1964

Sixties icon

A big success throughout the 1950s, Volkswagen's camper van achieved iconic status in the 1960s and 1970s when it became synonymous with the anti-establishment, hippie lifestyle.

The camper van became a means of self-expression as well as transport – the flagship of a movement, enjoying its highest profile at the generation-defining Woodstock festival. And with models like the eight-seater Samba, the original Volkswagen camper van helped put an adventure-hungry generation on the road.

Today, that cult status is as strong as ever – even for those whose influences are more Glastonbury than Woodstock.

1973

1978

New camper van, same values

Inspired by the past, built for today, the Volkswagen camper van range introduces new standards of comfort, performance and safety, thanks to its modern purpose-built design, superb features and high-quality engineering.

But the mood is unchanged. The latest incarnations of Volkswagen's iconic camper van still symbolise the fun, freedom and adventure that was such an appealing quality of the much-loved original. The ability to go where you please, when you please, is as relevant

today as it was in the 1950s – maybe even more so. Yes, for some, nostalgia may be a factor, but the appeal of the modern California and Caddy Maxi Camper can bridge the gap between generations.

And, whether you own an original Type 2 or a 2013 California Beach, you'll be part of a passionate community of like-minded owners. Groups such as the Volkswagen California Club are happy to share their knowledge and expertise so you can get the best out of your camper van – on the road or online.

The California shares the same values of independence as the iconic camper van

2013

Models

Three versatile camper vans, perfect for every adventure

The ultimate camping trip

With two full-sized double beds, and a fully functional kitchen, the California SE provides true home-away-from-home comfort

Picture the scene. After a day spent touring the countryside, you've found an idyllic spot with to-die-for views, and you're all ready to relax and settle down for a bite to eat before a restful night's sleep. Thanks to the California SE's fitted kitchen and comfortable sleeping space, you can set up a home away from home for four in a matter of minutes.

Every aspect of the California SE has been designed to make outdoor living easy, with no compromise on comfort or convenience. So, whether it's a full-on family holiday or a quick getaway with friends, the California SE is your perfect destination on the move.

Clever storage

Ingenious cubby holes and storage solutions built into the attractive wood-trimmed interior – including a large storage area under the bench seat – ensure your sleeping area won't become cluttered.

Simply illuminating

LED spotlights and a flexible halogen reading light keep the communal and sleeping areas well lit at night, and there are four 12V sockets for electrical devices, too.

Sleeping space for four

The California SE's four-seat interior can quickly be converted into a sleeping area for four. Downstairs, the simple-to-use innovative rail seating system lets you slide the bench seat to the rear, where it can easily be folded and converted into a bed measuring 1.14m x 2.0m.

The California SE's rising aluminium roof is electrically operated. With the push of a button it expands effortlessly,

giving you a spacious double berth with a sprung-slat bed measuring 1.2m x 2.0m. There's lots of headroom, too.

Once the lights go out, you can gaze at the stars through the windows – because there's two in the spacious upper sleeping area. Or, you can zip down the blinds for complete privacy. And a programmable heater can keep you snug and warm, whatever the season.

Make meals even more memorable

Explorers need more than sleep, of course – they need feeding, too. Whether it's breakfast for four or a feast at the end of a fun-packed day, the California SE's fitted kitchen is all you need.

At the centre is a two-burner gas hob and a stainless-steel sink. There's useful preparation space too, thanks to the sliding table. If you need more room, a glass worktop covers the hob.

Thoughtful design means there's plenty of storage space for pans, dishes and food in the cupboards. And everything fits so snugly that there are no annoying rattles or squeaks when you're on the road.

Added to which there's a 42-litre fridge, and fresh water is on tap from the 30-litre water tank which has an electric pump and freeze protection.

Dine in or out: it's your choice

The California SE's interior is perfect for communal dining, thanks to the extendable table, the folding rear bench and the revolving front seats. But who wants to eat inside?

The California SE's practical efficiency extends to the table and chairs that stow neatly into the tailgate and sliding door. Simply extend the awning over the sliding door to create a cosy outdoor area.

Take everyone on the adventure

The California Beach can carry seven people, lots of luggage, and still sleep four. Perfect for you, and all your friends

When you've got a big holiday planned, you want everyone to share the experience. The California Beach is all about choice and convenience, with extra interior space for more people and more luggage. Yet it still retains the two full-sized beds – one downstairs, and one in the expanding roof – that let you sleep four in comfort.

Choose extra seats, and you can carry up to seven people

Practical, everyday use

Thanks to the easy-to-use sliding-rail seat system and a wealth of optional seating configurations, the California Beach can seat up to seven, and there's plenty of room for your luggage, camping gear or sports gear. It lets you make the most of your living area for relaxing. Simply swivel the armchair-style driver and front passenger seats round, pull out the folding table from the side door and enjoy a meal together. Or, if you fancy sitting outside, there are two camp chairs stowed in the tailgate.

Upstairs, downstairs

When it comes to the end of the day, your living space doubles as a cosy bedroom. The rear bench seat folds down into a double bed measuring 1.55m x 2.01m, while the manually operated pop-up roof creates a generous upper sleeping berth, measuring 1.20m x 2.0m. The pull-down blinds offer privacy, while sliding windows and the optional rear heater will allow you the perfect sleeping conditions, whatever the season.

Caddy Maxi Camper

Big trips done in a small way

Now there's an even easier way to explore the great outdoors. The Caddy Maxi Camper packs style, functionality and a great sleeping space into an efficiently compact package.

The rear seats fold back to make a 1.1m x 2.0m bed, while the air grilles in the sliding windows and the easy-fit magnetic rear window blinds let you enjoy a cool breeze or privacy as you need it. The Maxi Camper also includes

a camping pack with a 2.3m x 2.0m rear awning and a pair of folding chairs and folding table. Internal storage is easy thanks to four handy Backpacker pockets and luggage nets to keep things tidy. There's even an insulated box that connects to the Caddy's power supply.

Roof rails let you attach optional extras, such as roof boxes to keep your living area clear of large luggage items, or a bike rack.

A smooth, stylish way to travel

Holidays should start the minute you close your front door. That's why we've made the California and Caddy Maxi Camper so easy and enjoyable to drive

When you're getting away from it all, the last thing you need is for the journey to be an unwelcome chore. Both the California SE and Beach, and the Caddy Maxi Camper, are built to be as comfortable on the road as they are off it.

Powerful, efficient engines

The California's efficient 2.0-litre TDI engine provides plenty of pulling power for demanding soft-road manoeuvres as well as strong, refined performance on the motorway, while the more compact Caddy Maxi Camper offers a choice of 1.6-litre TDI or 2.0-litre TDI engines. They're efficient, too, and BlueMotion Technology will further reduce emissions and fuel usage.

Go-anywhere driving

The California's neat dimensions and independent rear suspension give it a car-like feel that makes it as capable in town as it is on winding country roads. And, if you're planning to venture into festival territory, 4MOTION® all-wheel-drive is available on the California SE.

The Caddy Maxi Camper's even-more-compact profile means it's also nippier in town, but just as refined on the motorway. And, if you're looking for smoother gear changes – and an even more relaxing drive – the Direct Shift Gearbox (DSG) is available on both the California SE and the Caddy Maxi Camper.

Safety as standard

As you'd expect from Volkswagen, both the California and Caddy Maxi Camper are equipped with an extensive range of safety features, including Anti-lock Braking System (ABS), Traction Control System (TCS) and Electronic Stabilisation Programme (ESP), which channels power to the wheels with the best traction.

The Caddy Maxi Camper's compact size makes it nimble around town, yet refined on long-distance journeys

Driving tech explained

Direct Shift Gearbox (DSG)

Our seven-speed, Direct Shift Gearbox (DSG) is great for city driving. It can be used either as a fully automatic gearbox or as a quick-shift manual – just nudge the gearlever forwards or backwards to change gear up or down.

4MOTION

4MOTION® is an all-wheel-drive system that helps you to maintain optimum grip, especially in slippery conditions. If one wheel loses traction, 4MOTION® reacts in milliseconds to send more power to the wheels that have the most grip.

Comfortable and convenient

Cleverly designed and well-equipped, the California's cab provides you with a great driving experience

If you love your California as much as we're sure you will, then you'll be spending a lot of time driving it. That's why we're equally sure that the well-designed, well-equipped interior for the California SE and Beach will help make journeys a breeze.

High and mighty

Up front, there's a commanding view, with armchair-like seats that are height, reach and rake adjustable, as is the steering wheel. Electric front windows and electrically adjustable door mirrors come as standard. So does the trip computer with multi-function display. There are also plenty of useful storage spaces for travel essentials.

Stay entertained and connected

The California packs in lots of standard features, such as Climatic air-conditioning, driver and passenger airbags, and an eight-speaker RCD 310 audio system that includes an aux-in for your MP3 player. There's a wide range of options, too, such as DAB radio, multi-function steering wheel, satellite navigation and Bluetooth® connectivity – the perfect way to stay in touch with friends and family, even when you're far from home.

Electric front windows and electrically adjustable mirrors are fitted as standard

Clear and easy to use

All controls – including the dash-mounted gearlever and electric windows and mirrors – are easy to use, letting you stay focused on the road. A gearshift indicator helps to you change gear at the most economical time

Just cruising

Cruise control is fitted as part of BlueMotion Technology on all Californias and Caddy Maxi Campers. It helps you maintain a constant speed, reducing driver stress and helping to keep fuel bills low – especially on long trips

Entertainment on the go

The California SE and Beach both come with a RCD 310 radio/CD player with an aux-in socket for external music accessories. You can easily add sat-nav or other audio devices as factory-fit options

Stay cool and collected

The California SE and Beach have Climatic air-conditioning fitted as standard. As an option, Climatronic air-con allows the driver and front passenger to adjust their temperatures independently

A place for everything

There is plenty of storage up front to stow maps, guides, sweets and drinks, as well as deep compartments in the doors and dash, on the outer side of the seats and in the lockable glove compartment

Caddy Maxi Camper: big trips, made easy

As it is in the California, the Caddy Maxi Camper's cab is built around you. Thanks to its compact hatchback-like dimensions, it feels even more like a car to drive, but that doesn't mean there has been any compromise on the features.

The driver's seat adjusts for height, rake and reach and has a centre armrest, while the ultra-clear dashboard and features such as electric front windows and electrically adjustable door mirrors let you focus on the road ahead.

The Caddy has lots of clever storage options, too, like the open glove tray, roomy door pockets and plenty of drinks holders. And, to provide a soundtrack to your journey, there's the RCD 310 radio with CD player and aux-in.

Engines

Technology that helps to cut fuel bills and lower emissions

Intelligent, refined and economical

The California and Caddy Maxi Camper's advanced TDI diesel engines let you pick the best mix of performance and economy

A camper van is a great way to get to – and enjoy – any vacation spot. But, when your holiday starts and ends with a long trip, you don't want to be worrying about the cost of fuel, or how many stops you'll need to make. Equally, when you're hauling a full load of passengers and luggage you want plenty of power to make driving easy.

That's where Volkswagen's advanced turbo-diesel technology offers you the best of both worlds. Our TDI engines are compact enough to deliver impressive fuel economy, while still being powerful enough to give you the torque to get you smoothly on your way.

On the California Beach, that means a choice of a 114PS or 140PS 2.0-litre TDI turbo diesel engine, while the California SE offers you either the 140PS unit or more powerful 180PS 2.0-litre BiTDI twin-turbo diesel.

With the Caddy Maxi Camper, you also get a choice between the frugal 102PS 1.6-litre TDI turbo diesel or the 140PS 2.0-litre unit.

Even better news: all our camper models are fitted with Volkswagen's innovative fuel-saving BlueMotion Technology as standard (see following page). That means you'll enjoy even bigger savings, so letting you appreciate your trip even more.

Tips to save you even more fuel

Add a sat-nav

A sat-nav can plot shorter routes and prevent wrong turns – some can even help you navigate around traffic jams. It all helps to cut fuel consumption.

Travel light

Your California and Caddy Maxi Camper can carry a lot, but you don't need to carry all of it all of the time. Remove heavy items when they're not needed.

Check your tyre pressures

Up to 20% of fuel consumption is produced by the tyres' rolling resistance. It's even more if your tyres are underinflated, so check them regularly.

Use your gearshift indicator

A gearshift indicator is fitted to all of our campers. It helps you change gear at the most efficient times.

More miles, less impact

BlueMotion Technology lowers your fuel costs and CO₂ emissions, and it's standard on the California SE and Beach and Caddy Maxi Camper

At Volkswagen, we're just as keen as you to reduce the amount of fuel our vehicles use and their impact on the environment. That's why we've introduced BlueMotion Technology features to all California models, as well as the Caddy Maxi Camper.

The power of technology

All Volkswagens that carry the BlueMotion Technology badge include our energy-saving solutions – start/stop, low-rolling-resistance tyres, energy recuperation and cruise control – as standard. Together, they generate instant fuel savings and lower CO₂ emissions, bringing improved fuel economy.

One engine, all the options

The good news is that BlueMotion Technology is fitted as standard on the 2.0-litre TDI and BiTDI engines of the California SE and Beach, as well as the Caddy Maxi Camper's 1.6-litre and 2.0-litre TDI engines, helping you to start making savings straight away.

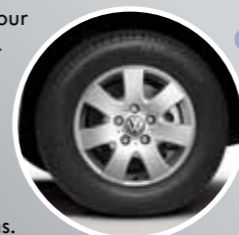

Cruise control

By keeping your vehicle at a constant speed, cruise control saves fuel that would normally be wasted when your speed fluctuates. It's especially useful for driving over long stretches, because it stops your speed creeping up unintentionally and reduces driver stress.

Low-rolling-resistance tyres

Fitting tyres with low rolling resistance means that the engine doesn't have to work as hard to get your van moving – or keep it moving. It all helps to save fuel and reduce carbon emissions.

Start/stop

Allows you to save fuel at traffic lights. When you stop, put your van in neutral, release the clutch and the engine will automatically switch off, saving fuel and reducing emissions. When you're ready to go, depress the clutch and the engine starts up again.

Regenerative braking

When braking, energy created during deceleration is wasted. Our energy recuperation system uses some of that momentum to run the alternator and charge the battery. If the battery is well-charged, the engine has to do less work turning the alternator to keep it topped up. This cuts fuel use and emissions.

How BlueMotion Technology works to lower your fuel bills and CO₂ emissions

BlueMotion Technology is standard on every California and Caddy Maxi Camper, and consists of four elements. Together, they help create significant cuts in fuel consumption and CO₂ emissions, which keeps money in your pocket and reduces the impact on the world around us.

Features and prices

It's time to choose your dream camper van

California SE: Standard features

Exterior

80-litre fuel tank with secure flap
 Body-coloured bumpers, door mirrors and protective side moulding
 Chrome-effect trim on radiator grille
 Clear glass headlight lenses
 Covered sliding-door guide
 Insulating double-glazing in living area (except sliding window)
 Mirrors: convex on passenger's side, flat with outer wide-angle section on driver's side
 Pop-up aluminium roof (electro-hydraulically activated) with two attachment rails for roof luggage rack system (maximum roof load 50kg), exterior-mounted stay arm and self-furling bellows
 Driver-side sliding door with power latching
 Tailgate with power latching
 Full steel body, self-supporting and galvanised
 Roof load rack preparation
 Underbody constructed of long and cross members
 Tailgate window, double-glazed
 Towing eyes, front screw-in and rear fixed to body
Alloy wheels and tyres:
 16" x 6.5J Miyato alloys fitted with 215/65 R16 low-rolling-resistance tyres (140PS models)
 17" x 7J Thunder alloys fitted with 235/55 R17 tyres (140PS 4MOTION® and 180PS models)
 Steel spare wheel
 Jack and tool kit
 Front and rear axle: anti-roll bars, front and rear, front MacPherson strut suspension, independent suspension, rear miniblock springs, telescopic shock absorbers
 Hydraulic brake system with ventilated disc brakes and Anti-lock Braking System (ABS)

Interior (cab)

Cruise control
 Two silicone-damped grab handles above cab doors; grab handle at left-side A-pillar
 Two storage compartments in driver and passenger door; lower holds 1.5-litre bottle
 Two sunvisors, folding and pivoted, with vanity mirror and document pocket
 Black-out screen for night use on windscreen and cab doors
 Carpet floor covering
 Climatic manually controlled air-conditioning with dust and pollen filter and air recirculation
 Crete fabric seat covers
 Dash-mounted gearlever
 Drinks holder
 Driver and passenger swivelling seats with lumbar support and armrests
 Fabric push-on frame insert to shade door window
 Front floor mats
 Hook on lower dash on passenger side
 Interior entry steps, illuminated
 Interior light and two reading lamps in overhead console, with switch-off delay
 Leather-covered steering wheel, handbrake and manual gearknob
 Lockable glove compartment
 Open storage compartment in dash, including mobile phone holder
 Parking heater with radio remote control
 Storage compartments in dash beneath outer air vents
 Storage compartments in outer side of driver and passenger seats
 Storage net on lower dash (passenger side)
 Storage pockets on front-seat backrests

Interior (living area)

Two folding chairs (stored in tailgate)
 Clothes cupboard and storage compartment
 Fridge (Waeco, 42-litre-capacity, compressor-type cooling system)
 Curtains for side windows (passenger-side rear)
 Drinks holder
 Flexible worktop (attached to kitchen cabinet)
 Fluorescent light and five LED spotlights, individually switched
 Folding table (stored in sliding door)
 Fresh water container, approx 30 litres (filled outside vehicle, nearside rear, with access for cleaning. Comes with electric pump)
 Waste water tank: protected against freezing in passenger compartment; capacity approx 30 litres
 Gas cooker: two burners, burner power approx 1kW/1.8kW. Power from 2.8kg gas cylinder (not supplied), energy consumption rated approx 140g/hr
 Interior entry step with automatic illumination switch-off
 Kitchen unit: sink/cooker with height-adjustable safety cover. Sink: stainless-steel with height-adjustable single tap (with switch for water pump) and removable washing-up bowl. Drawer for cutlery and storage space with two sliding doors
 Light in luggage compartment (tailgate-activated)
 Reclining bench/bed, adjustable and tilting: backrest adjustable to three positions; folding, articulated and adjustable headrests; storage compartment under bench seat; removable integrated seat belts.
 Sleeping area 1.14m x 2.00m, together with bed cushions
 Roof bed (1.20m x 2.00m) with gas-spring-supported pivoting mechanism: ventilation windows in sides (closable) on nearside and offside; mosquito net, comfort slatted frame, foam plastic padding (55mm), child safety net and flexible halogen lamp
 Safety tank valve: gas pressure regulator, shut-off valve for gas feed
 Sliding windows with flyscreens

Automatic pop-up roof bed

The California SE has an electro-hydraulic roof that rises at the touch of a button, allowing access to a comfortable roof bed with closable ventilation and a mosquito net.

Fridge

A 42-litre fridge ensures that you can keep your food fresh and your drinks chilled.

Reclining bench/bed

The California SE's rear bench reclines to form a large comfortable bed with room for two.

Thunder alloys

A set of four 17" x 7J Thunder alloy wheels fitted with 235/55 R17 tyres (140PS 4MOTION® and all 180PS models).

Folding chairs and table

The California SE comes with a folding table – stored in the sliding side door – and two folding chairs – stored in the tailgate – so you're never short of a place to sit and watch the world go by.

Gas cooker

A gas cooker with two hobs gives you the freedom to whip up a culinary feast on the go.

Leather-covered steering wheel, gearknob and gaiter

Add an extra dose of luxury to the interior of your California SE camper.

Miyato alloys

A set of four 16" x 6.5J Miyato alloy wheels fitted with 215/65 R16 tyres (140PS front-wheel-drive models).

How to choose your perfect California SE

p25 Select your model/engine

p34 Choose any extra factory-fit options that you want

California SE: Standard features (cont.)

Functional

RCD 310 radio/CD player
 Four 12V sockets in living area
 Air-conditioning: dash-mounted, manually controlled, with dust and pollen filter
 Electric windows, front
 Electrically adjustable, heated and folding exterior mirrors
 Heated front seats
 Instrument illumination, dimmable
 Instrument panel includes: brake fluid level indicator, brake-pad wear indicator, coolant temperature display, digital clock, fuel gauge, rev counter, trip computer, speedometer with total mileage and trip counter, warning lamps for handbrake applied and door/tailgate opening, windscreen washer fluid-level indicator
 Programmable parking heater with radio remote control and auxiliary heater: auxiliary heater with supplementary air heater, which enables the vehicle air to be fully heated when parked and supports the engine to heat the vehicle in cold conditions when driving. Controlled via the roof-mounted operating display (switch-on time, day of week, temperature) or remote control (on/off). Heat is guided into the vehicle via separate vents in the B-pillars. Includes second battery with cut-off relay
 Separately controlled heating system for living area
 Adjustable steering column
 Vented moulded trim above side windows in passenger compartment

Electrical

12V to 230V adapter (in kitchen cupboard)
 230V system with battery charger
 AC inverter with 230V socket
 Alternator (180Ah)
 Batteries: two 72Ah maintenance-free auxiliary batteries with cut-off relay for powering living area
 Central electronic system with waking-alarm function in cab above interior mirror. This unit also controls and shows status of: battery charge level, battery capacity, fridge (digital temperature setting), outside temperature, fresh- and waste-water supplies, charger display, activation of electric pop-up roof, parking heater
 Charging via alternator or battery charger
 Circuit breaker (FI/LS 0.001/13A)
 Fridge: electric 12V, power consumption approx 50W when cooling; cooling approx 30% of the time, silent approx 70% of the time; noise when cooling less than 35dB (A), classification *** (to -18°C)
 Earthed mains socket in living area
 Fuses for power-consuming devices in living area
 Supply via CEE outlet on outer side, rear left

Safety and security

Airbags – driver and passenger, with passenger-airbag deactivation
 Airbags – side and front curtain
 Anti-theft protection: alarm with interior and tow-away protection, deactivation switch for both functions on B-pillar, breaksafe steering-wheel lock, electronic immobiliser, locking wheel bolts
 Childlock on sliding door
 Two-tone horn
 Anti-lock Braking System (ABS)
 Brake Assist System (BAS)
 Engine Braking Control (EBC) (except 4MOTION®)
 Electronic Brakeforce Distribution (EBD)
 Electronic Differential Lock (EDL)
 Electronic Stabilisation Programme (ESP) including Active Rollover Protection (ARP), Brake Assist System, Maximum Brake Support, Prefill and Rain Brake Support
 Traction Control System (TCS)
 First aid bag and warning triangle
 Fog lights (front with cornering lights and rear)
 Halogen main headlights with daytime running function
 Headlight range control
 Head restraints, height- and tilt-adjustable for all seats
 Heated washer jets – front
 Hill Hold Assist
 Rear-view mirror anti-dazzle function
 Seat belts (rear), three-point, integrated in rear seats
 Seat belts (front), three-point with height adjustment and front-seat tensioners

Climatic air-conditioning

Make sure that you and your passengers are always at the right temperature – warm on winter days, and cool in the heat of summer.

RCD 310 radio/CD with aux-in

Features eight speakers, an MP3-compatible CD player, an aux-in for external devices and the ability to add a Digital Audio Broadcast (DAB) radio as a factory-fit option.

Electrically adjustable, heated and folding exterior mirrors

The electric folding function helps to protect your mirrors when parked at the touch of a button. It can also be used to make your California as narrow as possible when negotiating tight gaps.

Front fog lights with cornering function

Get an even better view of the road ahead, particularly in low-light conditions, and add an extra dash of style to your camper van's front-end.

Heated front seats

The California SE comes with heated seats for passenger and driver, giving extra comfort on those colder days.

Separate heater for rear, and parking heater with remote

Make sure your passengers travel in comfort with a heater independent of the driver's cab. You can also avoid a cold California in the mornings, thanks to the parking heater with remote.

Safety features: as standard

Comes with a driver and front passenger airbag, as well as Electronic Stabilisation Programme (ESP), Anti-lock Braking System (ABS) and Electronic Brakeforce Distribution (EBD). Also fitted is Hill Hold Assist for easy hill starts.

California SE: BlueMotion Technology

BlueMotion Technology

Technology that dramatically improves the fuel efficiency and lowers the emissions of your vehicle, cutting your fuel bills and your impact on the environment. Even better, these great features are fitted as standard on the California SE.

Start/stop

By cutting the engine, start/stop helps you to save fuel in slow traffic and at traffic lights. When you're ready to get going again the engine restarts automatically.

Low rolling resistance tyres

Tyres with low rolling resistance ensure that the engine doesn't have to work as hard to get your van moving – and keep it moving. It all helps to save fuel and reduce emissions.

Cruise control

By keeping your vehicle at a constant speed for long stretches of open road, cruise control saves fuel that would normally be wasted when your speed fluctuates.

Energy recuperation

Uses the energy created when you brake to run the alternator and charge the battery. That means the engine has to do less work at other times.

BlueMotion Technology badge

By carrying the BlueMotion Technology badge, you're showing that you have chosen to drive a vehicle that keeps its impact on the environment to a minimum.

- Passenger compartment lighting
- Storage chest in passenger compartment
- Takato cloth upholstery
- Trip computer with multi-function display
- 12V to 230V adapter

Safety and security

- Airbags – driver and front passenger, with de-activation switch
- Airbags – side and front curtain
- Electronic Stabilisation Programme (ESP)
- Anti-lock Braking system (ABS)
- Electronic Differential Lock (EDL)
- Electronic Brakeforce Distribution (EBD)
- Brake Assist System (BAS)
- Hill Hold Assist
- First aid kit and warning triangle
- Thatcham Category 1 alarm and immobiliser with tow-away protection

Elevating roof with sleeping area

The California Beach has an manual pop-up roof, allowing access to a comfortable roof bed with closable ventilation and a mosquito net.

Miyato alloys

A set of four 16" x 6.5J Miyato alloy wheels fitted with 215/65 R16 tyres (140PS front-wheel-drive models).

RCD 310 radio/CD with aux-in

Features an MP3-compatible CD player, an aux-in for external devices and the ability to add a Digital Audio Broadcast (DAB) radio as a factory-fit option.

Pull-down blinds

Cleverly integrated blinds offer shade as you travel and privacy when you're pitched up.

Folding chairs in tailgate

A handy pair of folding camp chairs are stowed in the tailgate – perfect for sitting out and enjoying the warmer evenings.

Climatic air-conditioning

Make sure that you and your passengers are always at the right temperature – warm on winter days, and cool in the heat of summer.

Leather-covered steering wheel, gearknob and gaiter

Enjoy this extra dose of driving luxury in the interior of your California Beach camper.

Safety features: as standard

Comes with driver and front passenger airbags, as well as Electronic Stabilisation Programme (ESP), Anti-lock Braking System (ABS) and Electronic Brake-pressure Distribution (EBD). Also fitted is Hill Hold Assist for easy hill starts.

How to choose your perfect California Beach

p29 Select a model/engine

p34 Choose any extra factory-fit options that you need

California Beach: **BlueMotion Technology**

BlueMotion Technology

Technology that dramatically improves the fuel efficiency and lowers the emissions of your vehicle, cutting your fuel bills and your impact on the environment. Even better, these great features are fitted as standard on the California Beach.

Start/stop

By cutting the engine, start/stop helps you to save fuel in slow traffic and at traffic lights. When you're ready to get going again the engine restarts automatically.

Low-rolling-resistance tyres

Tyres with low rolling resistance ensure that the engine doesn't have to work as hard to get your van moving – and keep it moving. It all helps to save fuel and reduce emissions.

Cruise control

By keeping your vehicle at a constant speed for long stretches of open road, cruise control saves fuel that would normally be wasted when your speed fluctuates.

Energy recuperation

Uses the energy created when you brake to run the alternator and charge the battery. That means the engine has to do less work at other times.

BlueMotion Technology badge

By carrying the BlueMotion Technology badge, you're showing that you have chosen to drive a vehicle that keeps its impact on the environment to a minimum.

Features an MP3-compatible CD player, an aux-in for external devices and the ability to add a Digital Audio Broadcast (DAB) radio as a factory-fit option.

Sliding window with fitted air grille

The sliding windows let you take in the surrounding scenery, while the ventilation grilles keep you cool at night.

How to choose your perfect Caddy Maxi Camper

p33 Select an model/engine

p34 Choose any extra factory-fit options that you need

Hanging storage

Clever zip-up compartments hang from the Caddy Maxi Camper's side, while netting on the interior ceiling provides plenty of extra storage.

Climatic air-conditioning

Make sure that you and your passengers are always at the right temperature – warm on winter days, and cool in the heat of summer.

Leather-covered steering wheel, gearknob and gaiter

Add an extra dose of luxury to the interior of your Caddy Maxi Camper.

Caddy Maxi Camper: BlueMotion Technology

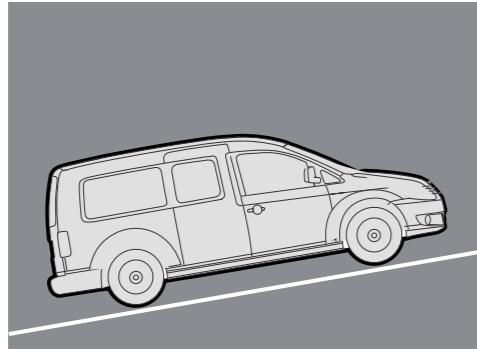

BlueMotion Technology

Technology that dramatically improves the fuel efficiency and lowers the emissions of your vehicle, cutting your fuel bills and your impact on the environment. Even better, these great features are fitted as standard on the Caddy Maxi Camper.

Start/stop

By cutting the engine, start/stop helps you to save fuel in slow traffic and at traffic lights. When you're ready to get going again the engine restarts automatically.

Hill Hold Assist

Helps you make an efficient getaway every time. On steep inclines it briefly keeps the brakes on to prevent you rolling back. This reduces the need to rev the engine unnecessarily.

Cruise control

By keeping your vehicle at a constant speed for long stretches of open road, cruise control saves fuel that would normally be wasted when your speed fluctuates.

Energy recuperation

Uses the energy created when you brake to run the alternator and charge the battery. That means the engine has to do less work at other times.

BlueMotion Technology badge

By carrying the BlueMotion Technology badge, you're showing that you have chosen to drive a vehicle that keeps its impact on the environment to a minimum.

Useful security tips

1. Get an alarm

Alarm noise may be enough to scare a thief and prevent a costly break-in.

2. Lock your doors

Even if you're only away from your California for a minute, locked doors deter thieves looking for an easy target.

3. Keep it tidy

Seemingly trivial items can still be bait to thieves. Stow gadgets out of sight or take them with you. Thieves know to look in the glove box, too.

4. Load out of sight

Try to load your California in a secure location. Thieves can linger in public areas for a swipe-and-run.

5. Park for visibility

Use well-lit areas. Avoid parking near vehicles or foliage that a thief could use for cover. Parking right up against walls can stop a thief getting in through your California's doors, too.

Support

Keeping you – and your camper van – on the road

Full support right from the start

We want to make sure that using your camper van is as hassle-free and cost-efficient as possible, so every vehicle comes with a three-year warranty and a choice of finance, servicing and insurance options. It all helps to keep the big issues covered

A three-year warranty that lasts 100,000 miles

All Volkswagen Commercial Vehicles get a three-year, 100,000-mile warranty* – and so do any factory-fit options that you buy. The vehicle warranty is made up of:

- A two-year manufacturer's warranty with unlimited mileage
- A third-year Van Centre warranty, up to a maximum of 100,000 miles*

Even if you exceed 100,000 miles during your first two years, the manufacturer's two-year warranty will still be valid.

Want cover for longer?

You can extend your vehicle warranty online or by phone. You can choose Comprehensive or Major Component cover and either one-off or monthly payments. Call **0845 641 9712** or visit www.volkswagencvwarranty.co.uk.

3
year
warranty
✓

* Unlimited mileage for the Crafter in its third year

Van Centres – always there for you

Our dedicated Van Centre network is at the core of everything we do, with more than 100 Van Centres and Authorised Repairers throughout the UK.

Our Van Centre network offers a wide range of services, from MOTs to accessories, servicing and fully-fitted parts. Not only that, but we use Volkswagen quality parts and you get dedicated staff who understand your vans intimately. So pop in for a coffee and a chat, and find out what your Van Centre can do for you.

Service options designed to fit your business perfectly

It's only natural that you want to keep your vehicle running at its best. Getting it serviced at a Volkswagen Van Centre is a great way to ensure that's exactly what happens. When it comes to servicing, we know every owner has different needs. That's why we've developed three different service options for you to choose from:

- Pay Monthly
- Pay Upfront
- Pay On-Demand

Whichever suits you best, you can rest assured that when you book in your vehicle, it'll be looked at by Volkswagen-trained technicians and that they'll use only Volkswagen quality parts. What's more, there's a two-year warranty on the parts and 12 months on labour.

For more details visit www.volkswagen-vans.co.uk/service or call **0800 717131** to learn more.

Volkswagen Insurance keeps you covered*

Volkswagen Commercial Vehicle Insurance can provide you with cost-effective, comprehensive motor insurance. Look at some of the benefits:

- Seven-day free cover to allow you to drive your vehicle away
- All repairs performed by approved repairers
- Volkswagen quality parts on all repairs
- Courtesy vehicle provided during repair following an accident
- Cover for breakage and damage to glass
- Tools-in-transit cover (up to £1,000)
- In-vehicle personal belongings cover (up to £500)
- Vehicle recovery
- 60-day European Union cover
- Legal expenses cover up to £100,000

We also offer a range of gap insurance products. These help you replace your vehicle or protect you from any financial shortfall if it is written off.

For more details visit www.insurewithvvcv.co.uk, call **0800 316 7896** or pop into your Van Centre and ask for a Flexible Finance brochure.

* Terms and conditions apply

Flexible Finance that makes things affordable

We can also make buying a new camper van more affordable in the first place. Speak to us about our selection of finance options, which include:

- Contract hire
- Finance lease
- Lease purchase
- Hire purchase

For more details visit www.volkswagen-vans.co.uk/finance or pick up one of our Flexible Finance brochures at your nearest Van Centre.

Three years' Roadside Assistance

Sometimes, the unexpected happens. If it does, your new Volkswagen comes with an unlimited-mileage recovery and assistance package. It lasts the same three years as your warranty and operates 24 hours a day, 365 days a year.

Cover is available across the UK and most of Europe. Our fully trained technicians can diagnose most problems at the roadside and they use Volkswagen quality parts.

6 ways your Van Centre can help you

Make full use of your nearest Van Centre – it's full of Volkswagen experts who know your camper van better than anyone and who can help you to get the best out of it

1. Helping you find your perfect camper van

We know that choosing your next camper van is a big decision, and we're here to help make your choice easier.

Our Van Centre experts can offer advice on every model in the range and help you pick the right vehicle and factory-fit options for your needs. They can also advise you on the best finance packages to ensure that your payments make financial sense.

2. Quality servicing you'd expect at a price you wouldn't

You want to be sure that your camper van is always ready for adventure whenever you need it. Our National Service Pricing is designed for customers who need the flexibility of being able to book their vehicle in for a service whenever it needs it. When you do, our technicians will do everything necessary to ensure that your vehicle is back on the road, letting you explore new horizons, as soon as possible.

3. Accessories designed to make your camper van perfect for you

With a camper van, there's always a new adventure round the corner, and that means that your needs are always changing. Maybe you need a towbar or a roof rack. You might want to add a sat-nav, or perhaps you want to give your camper van even more personal style. That's where Add Ons – our range of Volkswagen-approved accessories – comes in. They're available to buy and be fitted at your local Van Centre.

4. Taking the worry out of tyres

Why run around looking for a fitter who has your tyres in stock? Let us fit new tyres when your van is in for its service and it'll keep your van off the road for less time. We have a huge range of tyres for all Volkswagen vans, from economy to premium brands, including winter tyres.

5. Express Visual Checks – peace of mind for free

Your Van Centre or Authorised Repairer can give your vehicle a free, 29-point Express Visual Check for complete peace of mind. You'll be given a comprehensive report, with the results clearly explained, and your technician will talk you through what work may need to be done in the future, so you can plan ahead and budget for it. If something needs urgent attention, you can get a precise quote before any work is done – and all the Volkswagen parts are covered by a two-year warranty.

What else can we do?

Loads! Just pop into any Van Centre and ask us. For example, we may be able to point you to a local signwriter, recharge your air-conditioning, or answer any queries about your vehicle. Whatever it may be, we're here for you.

6. Fully fitted parts for a fixed price – not a penny more

The pricing of all our Volkswagen quality parts is straightforward and clear, so you know exactly how much you're paying. Even better, when they're fitted by trained technicians at a Van Centre or Authorised Repairer they come with two years' warranty and 12 months warranty on labour. If your van is over five years old, ask us about our Economy Parts range – a great-value way to help keep your vehicle 100% Volkswagen.
