

CLUB JOKER CITY & CLUB JOKER 2017

Club Joker City

LUXURY AT FIRST SIGHT

If you want to set standards you can't be satisfied with the existing conditions. The first time that you step into the Westfalia Club Joker models, you will be struck by the generous and luxurious space. This impressive feeling of space is a result of the combination of colours and materials throughout the entire motor home. Bright, friendly white and beige colours are contrasted with black, wood surfaces and defining aluminium silver. The floor in a bright boat deck pattern adds to the impression. The big windows make for an atmosphere flooded with light. When it's dark outside, LED spots provide highlights which make for an interesting and comfortable atmosphere. All materials used in the Club Joker are of particularly high quality and their interaction results in a luxurious overall impression. Holidays mean relaxation. The Club Joker and the Club Joker City give you the living space you need while on vacation.

The Westfalia Club Joker models win you over with their generous and inviting interior design concept. Design and functionality complement each other to form a perfect unity.

1

Club Joker

Club Joker

Perfect down to the last detail

Light strips, for example on the underside of the counter top in the kitchen, provide indirect lighting, thus creating a cosy atmosphere inside the vehicle.

2 The sink in the Club Joker City.

3 The kitchen in the Club Joker.

4 The refrigerator in the Club Joker.

ENJOY YOUR MEAL!

Cooking is closely related to passion. But you also need a lot of passion to design and develop a motor home kitchen, in particular in a van. Space and functionality – these two factors always compete with each other when developing the functional areas in a motor home. Only experience, know-how and skill can resolve this contradiction. That is why the kitchen in the Club Joker and the Club Joker City is based on more than sixty years of experience in the construction of motor homes, making it a real masterpiece. Let's have a look at the function: two-burner hob, sink with sink mixer and a big counter top give you the space you need to prepare a meal with passion. Pots, plates and cutlery can be neatly put away in the floor cupboards as well as the ceiling compartments above the counter top. There also is a spice rack of course. And the optional rooflight above the kitchen ensures perfect ventilation (Club Joker high roof). Enjoy your meal.

The kitchen makes a convincing impression thanks to its functionality. You will find everything you need to prepare your meal within easy reach. All utensils can be stored in the generous cupboards.

Club Joker

Sleeping

13

YOU CAN SLEEP TIGHT!

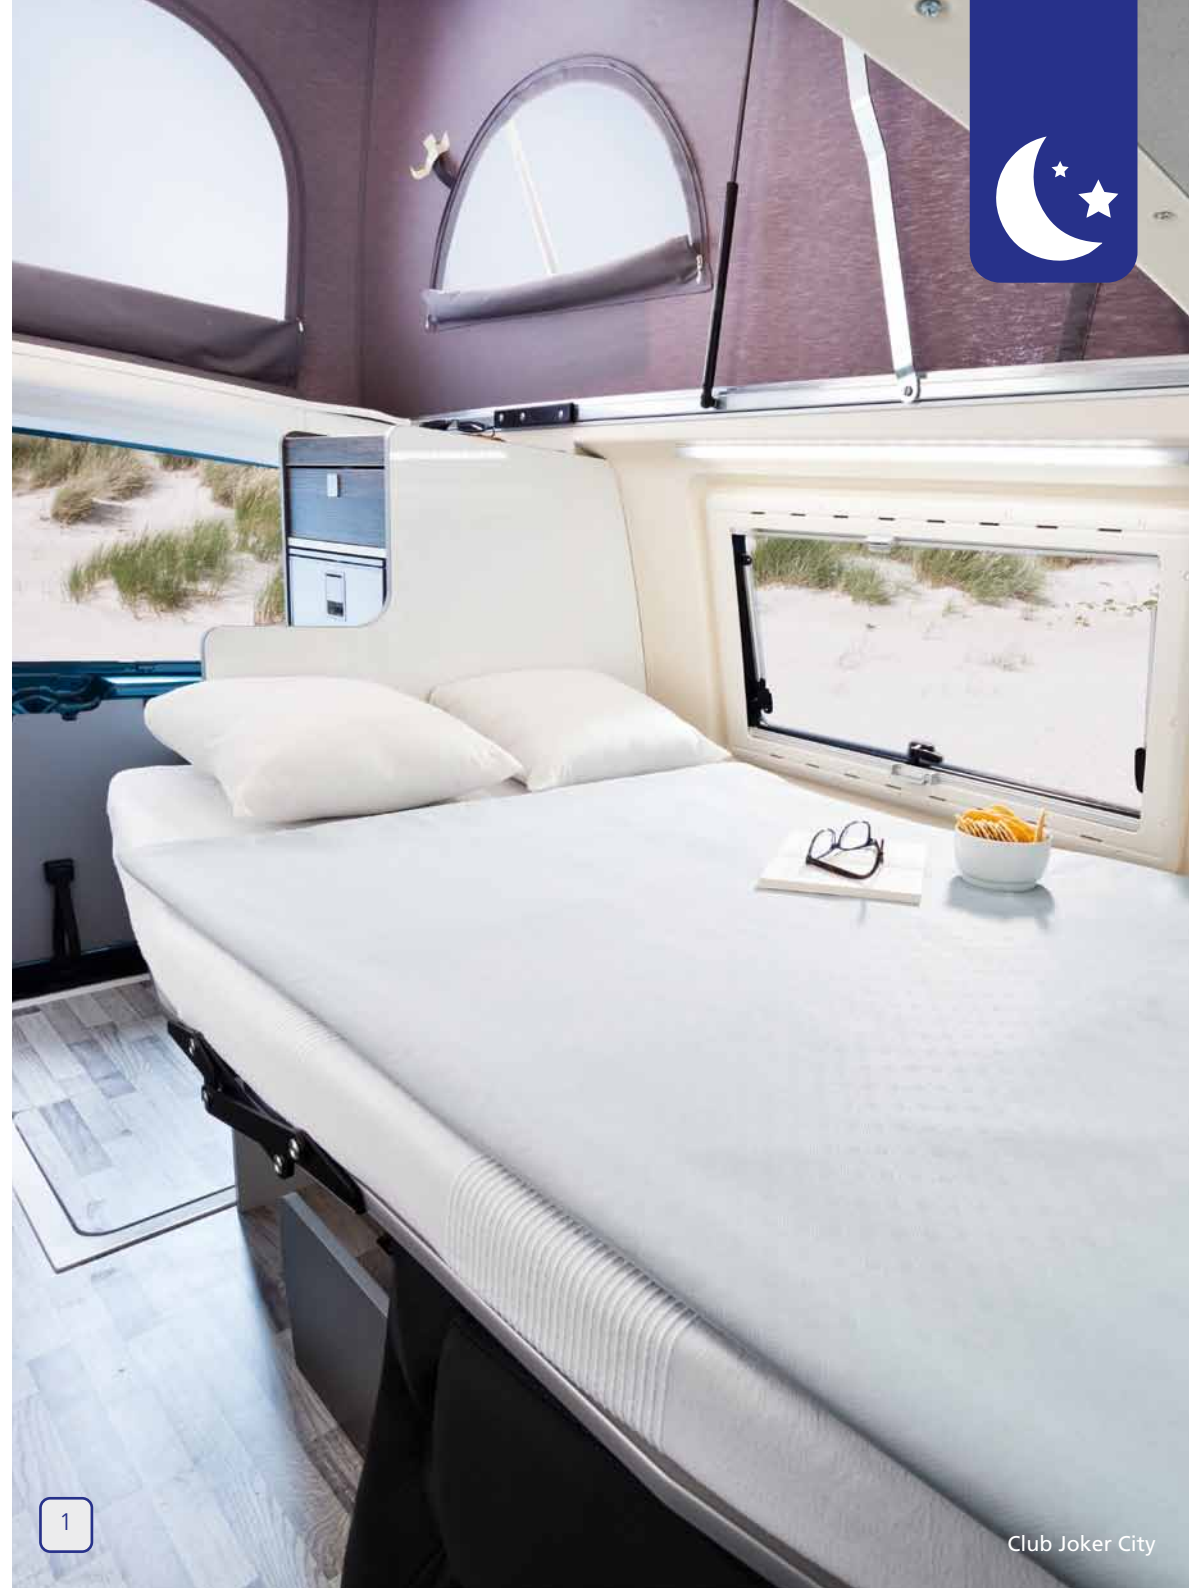

Sleeping in the Westfalia Club Joker is as individual as you are. Westfalia has achieved an innovative room design by means of the high roof in the Club Joker. The advantages offered by this concept are obvious. On the one hand the vehicle offers continuous headroom from the driver's cabin to the kitchen and bathroom area in the back. On the other hand the big 130 cm wide double bed is also integrated into the high roof and of course features a multi-dimensional spring system offering you additional relaxation and comfort.

With the Club Joker City you are choosing additional road capability thanks to its less than 2-metres height while still enjoying a good night's rest in the comfortable double bed in the folding roof.

In addition to this, the lower seating in both models can of course be easily converted into an additional bed. The innovative Westfalia seat bench offers two different surfaces to sit on and sleep on. Another highlight that goes the extra mile.

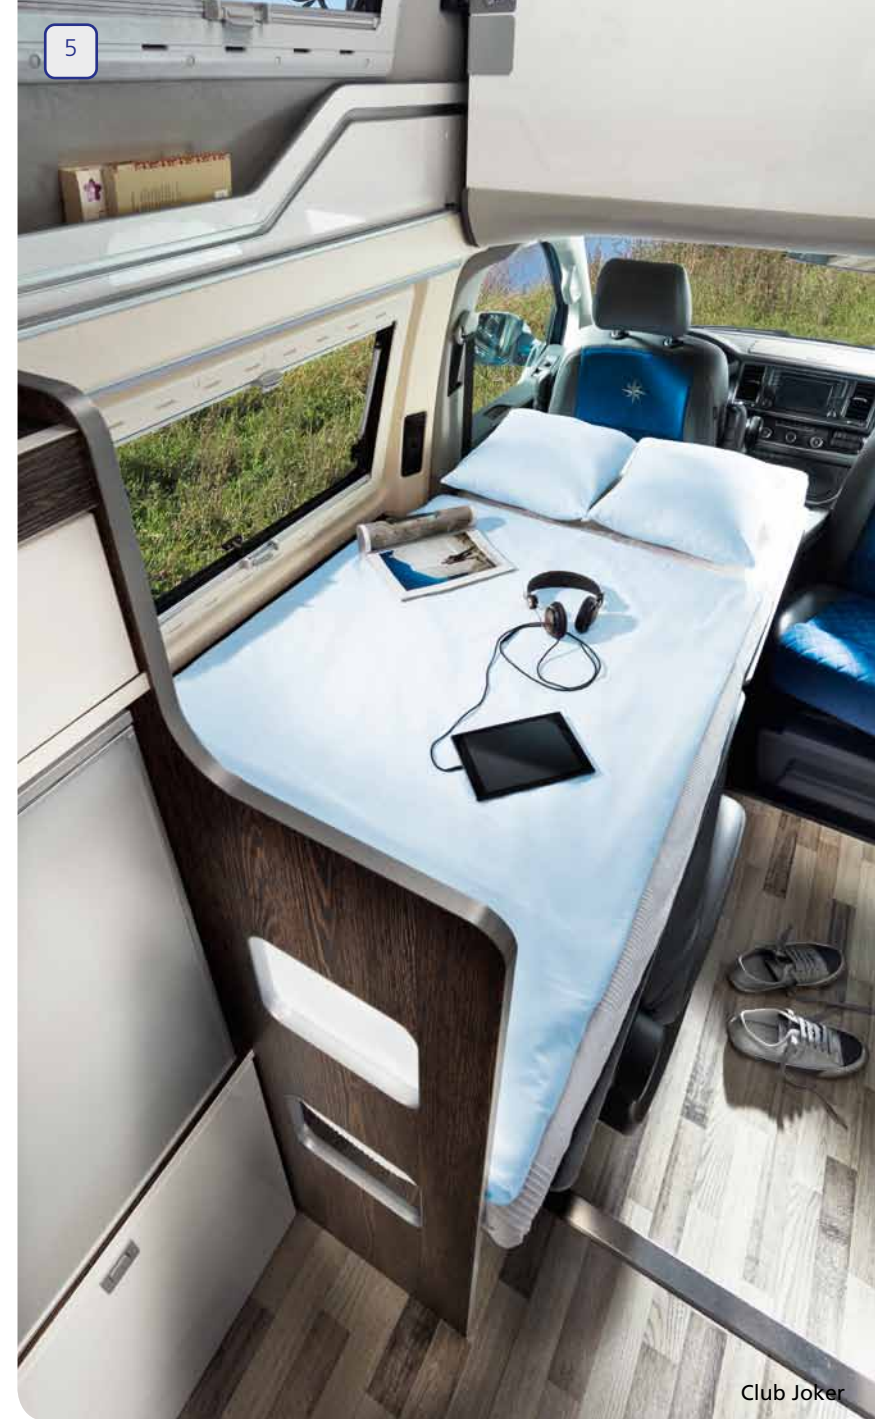

Flexibility is the key to the Club Joker models. No matter whether you choose the high roof or the folding roof, there is enough space to give four people a good night's rest.

- 1 The double bed on the living area level of the City.
- 2 The 3D spring system.
- 3 The reading lamp in the high roof.
- 4 Convertible with a flick of your wrist.
- 5 The double bed on the living area level of the Club Joker.

READY FOR THE NEW DAY!

What could be better than starting the day perfectly refreshed? The bathroom in the Club Joker offers you everything you need. In fact the advantages of the high roof concept are not only visible in the sleeping area but also in the bathroom area. You will find a bathroom worthy of the name in the rear part of the vehicle. The flexible entrance doors allow you to turn the bathroom into a toilet or shower, just the way you want it. With a separate washbasin, numerous storage areas and a towel holder, you won't lack anything you need. Economising on water? Not in the new Club Joker, thanks to the powerful hot water system and the generous tanks with 70 l fresh and 70 l waste water. Ventilation in the bathroom of the Club Joker is provided by means of hot water convection heaters and a large roof hood, which not only leads the steam to the outside but also allows a lot of light into the bathroom. In spite of its compact dimensions, the Club Joker City will also win you over in the bathroom area. Toilet, shower, washbasin – everything is where it belongs. A real milestone in its class.

The Club Joker is equipped with a complete bathroom in the rear of the vehicle. And the Club Joker City as well has a complete wet cell on board.

2

Club Joker City

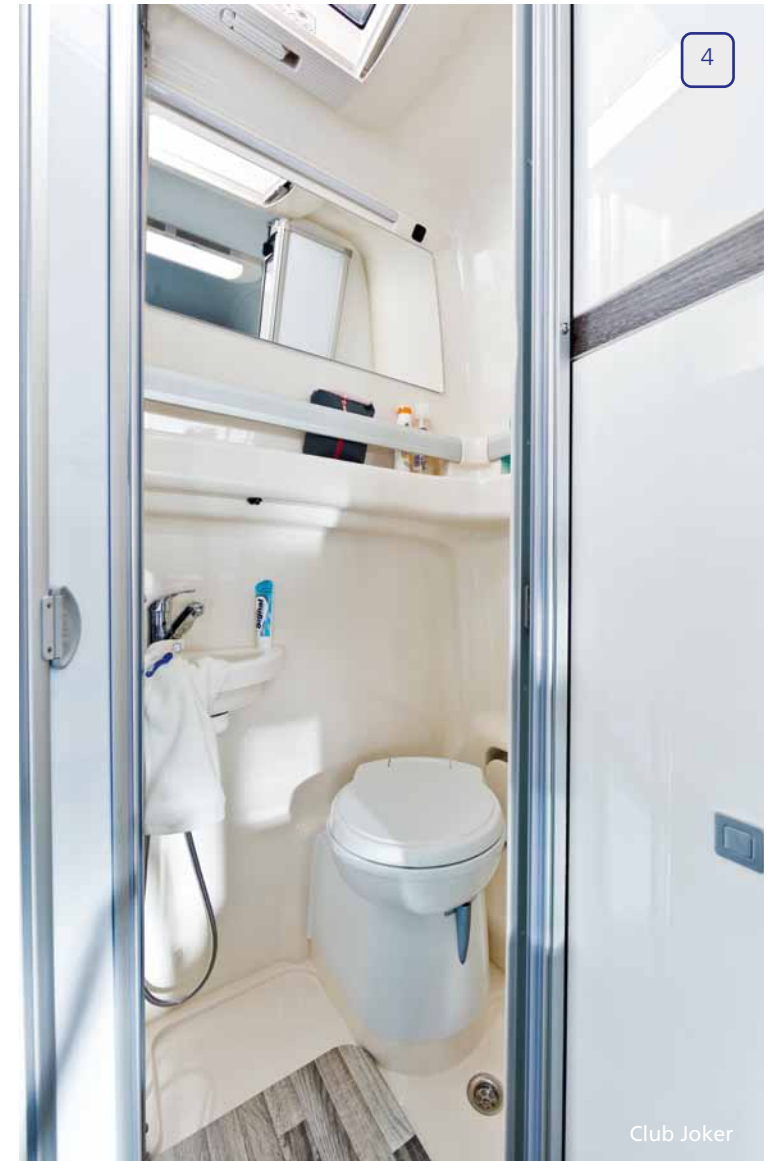

Tidy and convenient

The bathroom in the Club Joker City is perfectly thought out. Although not completely separated from the living area, you will find a vanity mirror as well as several drawers and storage compartments.

3

Club Joker

Club Joker

- 1 The bathroom in the Club Joker.
- 2 Storage compartment in the Club Joker City.
- 3 The outside shower in the Club Joker.
- 4 The shower in the Club Joker can be completely separated.

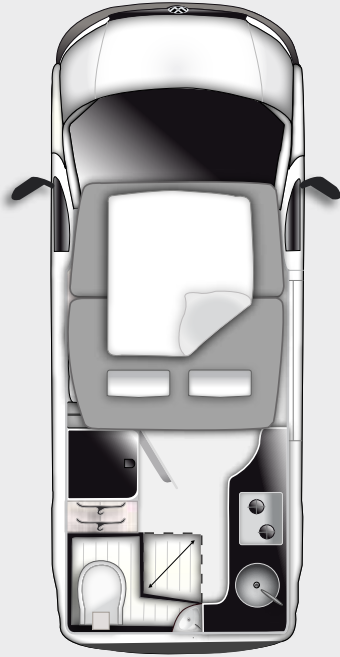

Floor plans:

Day

Night

Characteristics Club Joker

- + compact 5.29 m length
- + Westfalia high roof concept
- + continuous headroom
- + 130 cm wide double bed in the high roof

Well thought out and flexible

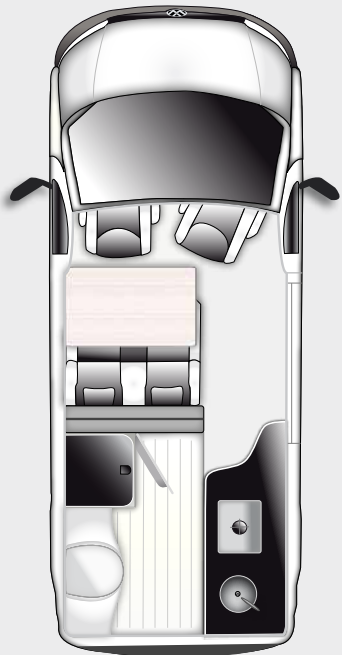

The high roof concept of the Club Joker wins you over at first sight. The four areas of the mobile home – living, cooking, sleeping and freshening up – are divided and can be used separately.

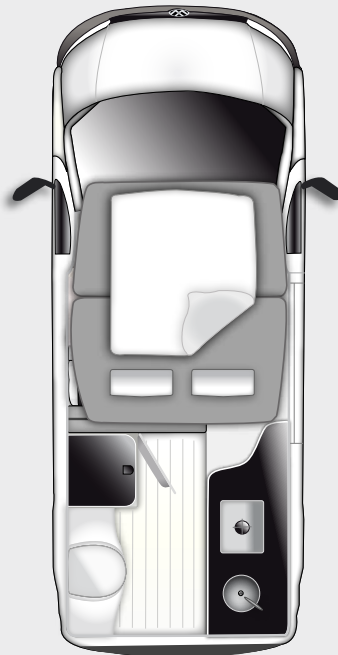

CLUB JOKER

Floor plans:

Day

Night

Characteristics Club Joker City

- + compact 4.89 m length
- + vehicle height less than 2.00 metres, suitable for underground parking
- + large double bed in the folding roof
- + a real motor home for 365 days

Compact and functional

Despite its compact dimensions, less than 5 metres long and less than 2 meters tall, the Club Joker City offers an individual wet room with toilet and shower.

CLUB JOKER CITY

PIONEER AND TRENDSETTER

Tradition makes the difference. For more than six decades Westfalia has been converting vans manufactured by VW into motor homes. There are good reasons for the fact that the first motor home ever built in Wiedenbrück in Westphalia was a VW T1. During these six decades Westfalia has created motor homes that have set standards. Innovations that set the pace. Products of inimitable functionality and quality. There are good reasons why the Westfalia models based on the T1, T2, T3 or T4 are today among the most famous and most desirable second-hand vehicles with prices far above their original purchase price, in particular for the T1 and T2 models. The new Club Joker models continues this tradition. See for yourself!

1982

Innovation, design and quality – these three words have characterised Westfalia for more than 65 years. Thanks to our know-how we have also become a reliable OEM partner for the automotive industry, be it PSA, Opel, VW, Ford or Mercedes.

THAT IS WESTFALIA QUALITY

You will have seen the expression 'Westfalia class' in this catalogue a number of times. and you will find out that this expression is much more than just a marketing promise if you take the time to take a closer look at a Westfalia. It is the choice of materials that captivates at first sight and convinces at second sight thanks to their durability. Westfalia sets standards with its workmanship. As a partner of the automotive industry we are used to meeting the tolerances of car manufacturers; this is why we talk about an OEM standard as regards our vehicles. This is the quality with which each vehicle is built: craftsmanship matched with innovative manufacturing processes. It is the readiness to innovate that makes each Westfalia motor home a milestone in its respective vehicle class. New solutions and trendsetting constructions available exclusively from Westfalia.

Westfalia has been converting vans into motor homes for more than 65 years. A wealth of experience from which you can benefit.

Certified

Reproducible quality by means of standardised working processes. That is why Westfalen Mobil GmbH is ISO 9001 certified.

Innovative

As an option both Club Joker models are also available with leather upholstery, seamed and embroidered with the Westfalia logo.

HIGHLIGHTS

All prices are given with German VAT tax. We reserve the right to make changes. Edition August 2016. Prices plus handover inspection and transfer charges.

The general terms and conditions of Westfalen Mobil GmbH apply. We cannot be held responsible for misprints or errors.
We reserve the right to make technical changes. Vehicles in the pictures may feature optional equipment not included in the standard version.

A purchase contract can only be concluded on the basis of your binding purchase order and the corresponding order confirmation of your dealer.
The water supply system shall at least comply with the technological state of the art as per 07/2011 (Directive 2002/72/EC).

We reserve the right to modify prices, technical data, installations and equipment as well as the design.
All statements concerning scope of delivery, design and performance correspond to the information available at the time of printing.
The stated and weights may vary by +/- 5%. The vehicle mass in running order VO(EU)1230/2012 includes standard equipment dimensions without optional equipment.

The installation of optional equipment increases the mass in running order
thus reducing the payload and might influence the number of passengers that can be carried.
